

The Streamline Series X-Ray imaging tables come in five different models, with each offering a different selection of motorized adjustments:

Streamline 1 offers Height adjustment only.

Streamline 2 offers both Height and Lateral Tilt adjustments.

Streamline 3 offers Height, Lateral Tilt, and Trendelenburg adjustments.

Streamline 4 offers four adjustments: Height, Lateral Tilt, Trendelenburg, and Longitudinal Travel.

Streamline 5 offers five adjustments: Height, Lateral Tilt, Trendelenburg, Longitudinal Travel, and Lateral Travel.
