

The Max Series X-Ray imaging tables come in five different models, with each offering a different selection of motorized adjustments:

Max 5 offers five adjustments: Height, Lateral Tilt, Trendelenburg, Longitudinal Travel, and Lateral Travel.

Max 4 offers four adjustments: Height, Lateral Tilt, Trendelenburg, and Longitudinal Travel.

Max 3 offers Height, Lateral Tilt, and Trendelenburg adjustments.

Max 2 offers both Height and Lateral Tilt adjustments.

Max 1 offers Height adjustment only.
